

Wedding Planning

Book with PWC and by the wedding weekend, you will have planner who will then be a friend. With PWC , planning is effective from the date of booking until the wedding weekend. As your planner, we will spend a lot productive time together. Productive but enjoyable!

Each client is assigned a client portal that allows you to stay up to date on planning. We will create a budget, discuss color palettes, sip tea, eat cake, stuff our face with food, try on dresses, play in make-up, fix our hair, take pictures, select beautiful stationary and much more! Doesn't sound like planning does it? Well we are! And you will enjoy every moment of it! Our Planning package also includes wedding weekend coordinating. We would never plan your wedding and then throw you away, friends would never do that. And that is just what you will be to me, by the time you get married. A dear friend!

Disclaimer:

Andrea only takes on a few clients a year as a planning client. It is a very intimate process and she sees it as a privilege to share in such a special day and doesn't take it for granted. Therefore, she is limited so that she can give her clients all that they desire from her and the PWC family.
